

740-Series Single Function Timers

Product # 740

Ideal for many kitchen applications, including monitoring frying, grilling and prep stations, and tracking coffee-making and employee handwashing. Quite simply, if a kitchen task needs to be timed or monitored, Prince Castle timers can help manage these tasks.

These simple-to-use timers countdown in hours and minutes or minutes and seconds. Up and down scan buttons make each channel easy to program. Each channel is activated with a push of a button. A digital channel display shows the active channel. LED channel indicators change colors during the timing cycle depending on the stage of the countdown: the light is green during the first 70% of the cycle, then turns yellow during the next 20% of the cycle, and finally turns red during the last 10% of the cycle. A dual tone volume alarm and flashing channel indicator alert the operator when timing is complete.

Product Features

- Digital channel display shows the active channel.
- New multi-colored LED channel indicators show the status of the timing cycle and provide early warning as the countdown expires.
- Lightweight ultra-slim 1 inch (2.5 cm) thick design and extra-long 10 foot (3 m) line cord lets you mount these units virtually anywhere.
- Each channel can be used simultaneously.
- The two-tone alarm is adjustable for wither high or low sound levels.
- Includes menu labels to identify channels: Burgers, Steak, Chicken, Fish, Fries, and blank stickers.
- Includes set of 3-1/2 inch (8.9 cm) mounting brackets. For increased mounting flexibility, flush mount bracket are available.
- One year warranty.
