

# Refrigerated Countertop Prep Station Product # SKPS3

*(formerly Tabletop Cooler)*

Improve your condiment flexibility with the Silver King SKPS3. This small, compact unit allows you to hold three different condiments simultaneously while providing more space in your kitchen.

The SKPS3 is designed without a compressor or refrigerant within the unit. Our innovation is energy-efficient by using a Thermo Electric Cooling System.

Our simple cleaning and a durable powder coated exterior make it a very robust design. Maintenance and service schedule is reduced, allowing you to save on operational and out of warranty costs.

## Product Features

- Powder coated exterior steel sides and galvanized bottom, high impact ABS breaker
- Unit features a small footprint that can be placed on a countertop
- Keeps toppings cool for up to 16 hours
- Removable pan lids
- Easy to clean
- Versatile and compact
- Thermo-electric cooling system
- Environmentally friendly
- Foamed in place polyurethane insulation for maximum strength and durability
