

Cornelius® Viper™

Equipment Package Overview

Key Benefits of the Viper Frozen Carbonated Beverage Dispenser:

High Capacity

For high peak demand times when everyone wants the same flavor, Viper has a **continuous capacity of 60-66 fl. oz. per minute** when alternating pour of barrels, so you can pour more drinks!

Industry Leading Recovery Time

Viper™ Elite is the **most reliable FCB dispenser** on the market and touts an industry-leading recovery time of **3 minutes** from liquid to frozen state—meaning you are up and running again faster than ever.

Patented Intelligent Defrost™

Why make a customer wait for a drink, or worse, walk away without making a purchase? **Patented adaptive defrost** keeps you up and running during peak demand so you **never miss a sale**.

Operational Ease

Quickly access manuals and easy-to-follow staff and service videos via QR code. Thanks to **technician-designed parts**, we've reduced maintenance and service times to **keep you moving**.

Highest Quality Equipment

From **industry leading manufacturing** quality checks to a team of dedicated engineers, **we work tirelessly** to ensure the highest quality of equipment leaves our doors. **Each unit is tested before leaving the factory to ensure highest out of box success rate—99.75% defect free.**

Lockout Defrost Times

With the Viper™ Elite lockout defrost feature you can **ensure that your rush time is uninterrupted** which means **your product and profits will keep flowing** when you need them the most.

Other Key Attributes of the Viper Frozen Carbonated Beverage Dispenser Program include:

- **Warranty:** Two-years, parts and labor
- **Simple Maintenance:**
 - **Daily:** Sanitize valve surfaces, wash removable drip tray and clean/sanitize the dispense area
 - **Monthly:** Clean air filter
 - **Annually:** Required preventative maintenance includes replacing wear parts and system sanitizing
- **Quick Dispense:** Any frozen carbonated beverage dispensed in under 4 seconds
- **Easy Installation:** Installations, including water and CO2 connections, follow site surveys and any necessary electrical work (electrical upgrades typically run between \$800 and \$1,500 depending upon complexity and market)
- **Savings & Time:** Cornelius offering market incentive for Coop exclusivity that includes \$1,500 package discount and 120 day payment terms
