Horizontal Core Bun Toaster CBT-SB-NA-1PS

Product Identification

LIMITED WARRANTY

This product is warranted to be free from defects in material and/or workmanship for a period of two (2) years from date of original installation, not to exceed 30 months from date of shipment from our factory. Any part or component which proves to be faulty in material and/or workmanship within the warranty period will be replaced or repaired (at the option of Prince Castle, Inc.) without cost to the customer for parts or labor.

This warranty is subject to the following exceptions/conditions:

- Use of any non-genuine Prince Castle parts voids this warranty and all work must be performed by an authorized Prince Castle Service Agent.
- All labor shall be performed during regular work hours. Overtime premium will not be covered.
- Travel charges are limited to 200 kilometers (100 miles) round trip, 2 hours travel time, one trip per repair.
- Damage caused by carelessness, neglect, and/or abuse (e.g., using wrong current, dropping, tampering with or altering electrical components, or improper cleaning) is not covered.
- Equipment damaged in shipment, by fire, flood or an act of God is not covered.
- Damage to non-stick coated surfaces is not covered by this warranty.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Electrical Specifications

CBT-SB-NA-1PS 200-240VAC, 50/60 Hz, 1 Ph.

Disconnect Power

WARNING

Failure to turn off the unit before servicing could result in severe bodily injury or death. Switch the On/Off switch to the Off position

Important

Prince Castle reserves the right to change specifications and product design without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions, or replacements for previously purchased equipment.

Safe Service Practices

WARNING

Indicates information important to the proper operation of the unit. Failure to observe may result in damage to the equipment and/or severe bodily injury or death.

CAUTION

Indicates information important to the operation of the unit. Failure to observe may result in damage to the equipment.

GENERAL

This appliance is designed for toasting bread products in a commercial McDonalds kitchen. The dimensions of the bread products as defined

CAUTION

Do not hose down or use a water jet on the unit. Keep the unit away from running water. Disconnect power cord before performing any cleaning or maintenance.

CAUTION

Equipment must be elevated from the floor at all times during cleaning and operation.

Serial Number Matrix

The manufacture date is encoded in the unit's serial number. The service bench installation date (used to determine warranty coverage) is considered to be the end of the following month. For example:

Serial Number: FJ0000458

Manufacture Date: June 2014

Service Bench Installation Date: July 31, 2014

Troubleshooting Steps

BURN/ELECTRICAL SHOCK HAZARD! Platen is HOT and can cause severe burns or severe shock.
Keep hands and objects out of the toaster unit! Failure to exercise caution may result in serious injury!
Turn the unit off, unplug it and let it cool down completely before touching or working on internal apparatus.

Display Menu Options

Display Menu Options (Continued...)

Management Programming

1

To Enter Programming screens
Press and hold the MENU
button for 6 seconds. The
PROGRAMMING VERSION
screen will appear in the LCD
display.

From the PROGRAMMING
VERSION screen, you may:

Press RIGHT scroll
button to advance to the
next menu item

3

To Adjust PLATEN
TEMPERATURE from the
SELECT LANGUAGE Screen,
press the RIGHT scroll button.
Press the OK button to enter the
programming screen.

- A. From the PLATEN
TEMPERATURE screen that
appears adjust the tem-
perature using the RIGHT
and LEFT scroll buttons.

Accept the new Temperature by
pressing OK.

NOTE : To cancel without
accepting the new setting,
press the MENU logo button to
return to the previous screen

2

To Change the LANGUAGE
from the PROGRAMMING
VERSION

Screen, PRESS the left scroll
button.

From the SELECT
LANGUAGE Screen,
Press OK button

- A. From the
LANGUAGE screen
that appears, use
the RIGHT and
LEFT scroll buttons.
TO select different
Language
B. Accept the new
language by pressing
OK button to return to
the SELECT
LANGUAGE screen

4

To adjust SELECT F/C
From The PLATEN
TEMPERATURE screen,
press the RIGHT scroll
button.

From the SELECT F/C screen
that appears, press the OK
button.

- A. From the SET F/C
Screen that appears,
Use the LEFT and
RIGHT scroll buttons to
Select TEMP = F
(Fahrenheit) or
C (Celsius)
B. Accept the new scale
By pressing the OK
Button to return to
The SELECT F/C
screen

Management Programming (Continued)

5

To adjust set TOAST TIME from the SELECT F/C screen, press the RIGHT scroll button

From the SELECT TOAST TIME Screen, Press OK button

- A. From the SELECT TOAST TIME that appears, Adjust the set point Time Using the RIGHT and LEFT Scroll buttons. Accept The new toast time by Pressing OK.

NOTE : To cancel with\out accepting the new setting, press the MENU logo button to return to the previous screen

7

To enter LON SERVICE CALL from CLUB TOAST TIME screen, press the RIGHT scroll button.

From the LON SERVICE CALL Screen, Press OK button

From the LON SERVICE CALL screen that appears, the following options are available

YES = LEFT scroll button
 NO = RIGHT scroll button
 OK = Cancel / Go Back

8

To enter MFY STORE from LON SERVICE CALL screen, press the RIGHT scroll button.

From the MFY STORE Screen, Press OK button

From the MFY STORE screen that appears, the following options are available

YES = LEFT scroll button
 NO = RIGHT scroll button
 OK = Cancel / Go Back

6

To adjust CLUB TOAST TIME from the SELECT TOAST TIME screen, press the RIGHT scroll button

From the SELECT CLUB TOAST TIME Screen, Press OK button

- A. From the SELECT CLUB TOAST TIME that appears, Adjust the set point Time Using the RIGHT and LEFT Scroll buttons. Accept The new toast time by Pressing OK.

NOTE : To cancel with\out accepting the new setting, press the MENU logo button to return to the previous screen

Management Programming (Continued)

9

To view Service Codes, From the MFY Store screen, press the RIGHT scroll button once.

From the Service Codes screen,

- A. Select OK to check the service codes
- B. Refer to Service codes page to understand the operation of the unit.

10

Exit Programming

Press the MENU button from any screen to exit programming mode.

CBT-SB-NA-1PS

Remove/Replace PCB

- 1 Unplug the unit

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

- 2 Remove the bun landing zone from the unit

- 3 Loosen the bottom screw to access the electronics tray. Reference the **Red Arrow**.

- 4 Pull on the screw to slide the electronics tray open

- 5 Remove the (10) connectors from master control board. Reference the **Black Arrows**.

- 6 Remove (4) screws to unsecure the master control board. Reference the **Blue Arrows**.

- 7 Remove the Board

Remove/Replace PCB

- 8** Install the new board
- 9** Using the (4) screws removed in step 6, secure the board onto the electronics tray
- 10** Reconnect (10) connections onto board that were removed in step 5.
- 11** Slide the electronics tray back into unit.
- 12** Tighten the screw to secure the electronics tray.
- 13** Re-install the bun landing zone to the unit
- 14** Plug in Unit, ensure the unit is fully functional.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Remove/Replace Relay

1 Unplug the unit

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

2 Remove the bun landing zone from the unit

3 Loosen the bottom screw to access the electronics tray. Refer to the **Yellow Arrow**

4 Pull on the screw to slide the electronics tray open

5 Remove (4) connectors from relay (Note the position of each connector). Refer to the **Blue Arrows**

6 Remove (2)- 3mm nuts to release the relay from the electronics tray. Refer to the **Red Arrows**

Remove/Replace Relay

- 7** Install the relay using the (2)- 3mm nuts removed in Step 6
- 8** Install the (4) connectors that were removed in step 5 back onto the relay.
- 9** Install the relay using the (2)- 3mm nuts removed in Step 6
- 10** Slide the electronics tray back into unit.
- 11** Tighten the screw to secure the electronics tray.
- 12** Re-install the bun landing zone to the unit
- 13** Plug in Unit, ensure the unit is fully functional.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Remove/Replace Conveyor Belt

1 Unplug the unit

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

2 Remove the In-Feed Rack

3 Release tension on the conveyor belt by removing (2) screws on rear side of unit. Refer to the **Blue Arrows**

4 Remove the front cover by removing the (4) screws. Refer to the **Red Arrows**

5 Push in the release knob, then pull the conveyor assembly out

6 Find the master link on belt. Refer to the **Yellow Arrow**

7 Un-cripp the master linkage on both sides. Use pliers to remove. Refer to the **Green Arrows**.

Remove/Replace Conveyor Belt (Cont..)

- 8** Slide master links out from each side. Refer to the **Black Arrows**

- 9** Pull conveyor belt out.

Remove/Replace Conveyor Belt (Cont..)

10

Feed in New Belt

11

Insert (2) linkages that were removed in step 8. (1 on each side of belt)

12

Use pliers to hook linkages onto belt

13

Slightly crimp the master link onto the belt

14

After ensuring the belt is secure, slide the conveyor assembly back into unit

15

Secure the front cover by installing the (4) screws previously removed in step 4.

16

Secure (2) belt tensioner bolts on rear side of unit, previously loosened in step 3.

17

Re-install the in-feed rack

18

Plug in Unit, ensure the unit is fully functional.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Remove/Replace Teflon Bars

- 1** Unplug the unit

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

- 2** Remove the In-Feed Rack

- 3** Release tension on the conveyor belt by loosening (2) screws on rear side of unit. Refer to the **Blue Arrows**

- 4** Remove the front cover by removing the (4) screws. Refer to the **Red Arrows**

- 5** Push in the release knob, then pull the conveyor assembly out

- 6** Find the master link on belt. Refer to the **Yellow Arrow**

- 7** Un-crimp the master linkage on both sides. Use pliers to remove. Refer to the **Green Arrows**.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Remove/Replace Teflon Bars (Cont..)

8 Slide master links out from each side. Refer to the **Black Arrows**

9 Pull conveyor belt out. Refer to the **Orange Arrow**.

10 Remove (4) screws to release all (4) Teflon bars. Refer to the **Green Arrows**

Remove/Replace Teflon Bars (Cont..)

11 Install (4) screws to secure (4) Teflon bars. Ensure the Teflon bars are properly aligned.

12 Feed in the Conveyor Belt

13 Insert (2) linkages that were removed in step 8. (1 on each side of belt)

14 Use pliers to hook linkages onto belt

15 Slightly crimp the master link onto the belt

16 After ensuring the belt is secure, slide the conveyor assembly back into unit

17 Secure the front cover by installing the (4) screws previously removed in step 4.

18 Secure (2) belt tensioner bolts on rear side of unit, previously loosened in step 3.

19 Re-install the in-feed rack

20 Plug in Unit, ensure the unit is fully functional.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Remove/Replace Motor and Belt Assembly

1 Unplug the unit

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

2 Remove the In-Feed Rack

3 Remove the front cover by removing the (4) screws

4 Push in the release knob, then pull the conveyor assembly out

5 On the left side of the conveyor assembly, remove the belt cover.

6 On the underside of the conveyor assembly, remove the motor cover by unhooking the 4 tabs.

7 Remove (4) 8mm nuts to remove motor, and release tension from belt.

Remove/Replace Motor and Belt Assembly (Cont...)

- 8** Reinstall Belt and Motor by securing the (4) 8mm nuts and (4) screws.
- 9** Reinstall the motor cover on the underside of the conveyor assembly
- 10** Reinstall the belt cover on the left side of the conveyor assembly
- 11** Slide electronics tray back into the unit.
- 12** Secure the front cover by installing the (4) screws previously removed in step 3.
- 13** Secure (2) belt tensioner bolts on rear side of unit.
- 14** Re-install the in-feed rack
- 15** Plug in Unit, ensure the unit is fully functional.

Remove/Replace Display Assembly

1 Unplug the unit

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

2 Remove the (2) Phillips screws to release the left side panel. Refer to the **Green Arrows**.

3 Unplug the Display Harness. Refer to the **Red Arrow**.

4 Remove the (4) M3 nuts. Lift the display assembly off the control side panel. Refer to the **Blue Arrows**.

5 Reinstall the display assembly by installing the (4) M3 nuts. Previously removed in step 4.

6 Plug in the display harness. Previously removed in step 3.

7 Secure the left side panel using the (2) Phillips screws, previously removed in step 2.

8 Plug in Unit, ensure the unit is fully functional.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Remove/Replace Club Belt

1 Unplug the unit.

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

2 Refer to Page to remove club assembly.

3 Loosen (4) motor bolts to lessen tension from belt.
Refer to the **Blue Arrows**.

4 Slide belt off gear assembly. Refer to the **Red Arrow**.

5 Replace Belt.

6 Tighten (4) motor bolts to apply tension to belt

7 Refer to Page to replace club assembly.

8 Plug in Unit, ensure the unit is fully functional.

Horizontal Core Bun Toaster

CBT-SB-NA-1PS

Remove/Replace Club Probe

- 1 Unplug the unit.

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

- 2 Refer to Page to remove club assembly and belt.

- 3 Remove (2) gears from club assembly. Refer to the **Red Arrows**.

- 4 Remove (3) Screws. Refer to the **Yellow Arrows**.

- 5 Remove (2) Wires by removing (2) Phillips screws. Refer to the **Orange Arrows**.

- 6 Pull out platen assembly.

- 7 Remove (4) side screws to remove platen from assembly. Note the length and position of screws. Refer to **Blue Arrows**.

- 8 Lift platen off assembly.

- 9 Remove Screw to remove probe from platen. Refer to the **Green Arrow**.

- 10 Replace Faulty Probe. Reuse sleeve for new probe.

Remove/Replace Club Probe

11 After replacing the probe, reinstall screw to secure the probe to platen. Previously removed in Step 9.

12 Place platen back onto assembly. Previously removed in Step 8.

13 Replace (4) screws to secure platen to assembly. Previously removed in Step 7.

14 Feed probe wire through slot in assembly

15 Reinstall the conveyor platen assembly onto club assembly. Previously removed in Step 6.

16 Replace (2) wires, Previously removed in Step 5.

17 Replace (3) screws, Previously removed in Step 4.

18 Replace (2) gears, Previously removed in Step 3.

19 Tighten (4) motor bolts to apply tension to belt

20 Refer to Page to reassemble club assembly and belt.

Remove/Replace Club Assembly

1 Unplug the unit.

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.

2 Push in from each side right side panel to remove panel from unit. Refer to the **Blue Arrows**

3 Remove (2) screws to release the bottom cover. Remove the bottom cover. Refer to the **Green Arrows**.

4 Remove (2) screws to release the club assembly. Refer to the **Red Arrows**

5 Slide the club assembly upwards, and out to remove the entire club assembly. Be cautious of any wiring.

6 Using a slotted screwdriver, remove the (4) screws to release all connections from the club assembly. Refer to the **Yellow Arrows**.

Remove/Replace Club Assembly

- 7** Using a slotted screwdriver, attach (4) wires to club assembly. Previously removed in step 6.
- 8** Slide club assembly back into unit. Make sure all tabs on the upper club assembly are aligned. Ensure all wiring is routed properly. Previously removed in step 5.
- 9** Install 2 screws to secure club assembly. Previously removed in step 4.
- 10** Re-install the cover, and (2) screws. Previously removed in step 3.
- 11** Re-install right side cover. Previously removed in step 2.
- 12** Plug in Unit, ensure the unit is fully functional.

Remove/Replace Platen High Limit Switch

1 Unplug the unit.

WARNING

Failure to disconnect power from the unit before servicing could result in severe bodily injury or death. The ON/OFF Switch does not disconnect incoming power to the unit.
